APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Nevada

1. Date of receipt of application June, 25 - 1906
2. Name of applicant J. B. Menardi and Henry Anderson

Postoffice address Reno Nevada

County Washoe

I. If applicant is a corporation, give

(a) Date and place of corporation

(b) The amount of capital stock

(c) The amount paid in

(d) The names and addresses of Directors

3. The quantity of water claimed is five cubic feet per second.
4. Source of water supply Mill Creek also known as Mill Canyon
5. Location of point of diversion NE. 1/4 sec 28 also W 1/2 sec 21. T 27 N., R. 48 E. 454
6. To be used for:

I. Irrigation and domestic use:

(a) Number of acres to be irrigated acres.

(b) In the following legal subdivisions

(A list of lands to be irrigated may be appended as a part of this application.)

II. Mining, power, manufacturing or transportation purposes:

(a) To be used for Mining milling & power purposes

(b) Amount of power to be generated horse power

(c) At what point

(d) Is water to be returned to stream ("yes" or "no") Yes

(e) If "yes," at what point NE 1/4 sec 20, T 27 N., R 48 E.

7. Estimated cost of works $5000000

Mill Creek rises in the North-east quarter of Section 28 Township 27 North, Range 48 East and flows thence in a North-westerly direction into Cresent Valley. Said creek rises about 30 miles South of Buowawe in Eureka County, Nevada. It is the intention of the applicants to divert the water of said creek by flumes and pipes twice, the first diversion to be made at a point approximately 100 yards below the source of said creek and to carry the water thence in a Northwesterly direction in pipes and flumes along the Easterly slope of a high ridge that exists between Mill Canyon and Bullion Hill Canyon, which lies West of Mill Canyon, to a place on the point of said ridge near the confluence of said canyons, the distance which said water is to be carried being about 3/4 of a mile. At this point a head of about 200 feet will be obtained and water will then be dropped again to the level of Mill Creek at a point near the old Tenabo Mill in the South-west quarter of Section 21 in Township 27 N., R.48 East where it is the intention of the applicants to construct and operate a mill and concentrating plant and to develop electrical and water power for mining and milling operations.

II. *Dimensions of works:*

(a) *Height of dam,* _____ *feet; length of dam at top,* _____ *feet; length of dam at bottom,* _____ *feet; material used in construction (wood, earth, stone or concrete)* _____

(b) *Capacity of reservoir* _____ *acre-feet.*

(c) *Size of head-gate—width,* _____ *feet; height,* _____ *feet.*

(d) *Ditch (flume or pipe)—width at bottom,* _____ *feet; width at water line,* _____ *feet; depth of water,* _____ *feet. Average grade per mile is* _____ *feet. Length of ditch is* 1 3/4 *miles, and crosses the following quarter sections:* NE 1/4 sec. 28, SW 1/4 sec 21, N.W 1/4 sec. 21, NE 1/4 sec 20 SE 1/4 sec 17

to points above described *which is the point of intended use.*

APPROVAL OF STATE ENGINEER

The number of this permit is 139.

Date of receipt of first application June 25, 1906.

Returned to applicant for correction _____, 190__.

Recorded in book A *page* 139.

Approved Dec. 1, 1906.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Nevada, and hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated not more than five *cubic feet per second.*

The construction of the within described works to be commenced not later than May 1 1907

One-fifth of the work above specified to be completed on or before Oct. 1. 1907

The whole of said work to be completed on or before May 1. 1908

The time for the proof of beneficial use of water appropriated in accordance herewith, to extend to May. 1. 1909

Witness my hand this first *day of* December, 1906.

Henry Thurtell
State Engineer.

Permit Withdrawn March 30-1910 See letter from C. B. Mamadi Mich 30-10 Nev

REMARKS

M [illegible] all be returned to Mill Creek at this point and again diverted at a point on Mill Creek about 300 feet North-westerly from the site of the old Tenabo Mill in the West half of Section 21, Township 27 North Range 48 East and will be carried thence North-westerly along the easterly slope of a high ridge on the West side of Mill Creek to a point near the mouth of Mill Canyon in Section 17 Township 27 North Range 48 east, a distance of about 1 mile.

At this point a head of about 300 feet will be obtained and the water will then be dropped to the level of Mill Creek where it will be used for the purpose of generating water power and electrical power for mining and milling operations and for operating a mill, and will all be then returned at that point into Mill Creek.

The water will be diverted by means of pipes and flumes and the time required for the construction of such pipes and flumes and for the construction of the milling and power plant to be constructed will be one year from the date of the granting of the permit
