APPLICATION FOR PERMIT **Serial No. 4039**

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Rate of first receipt and filing in State Engineer's office JUN 28 1916
Returned to applicant for correction
Corrected application filed

The undersigned George W. Bettendorff
Name of applicant.
of Geyser, County of Lincoln,
State of Nevada, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation give date and place of incorporation.)

1. The source of the proposed appropriation is Swartz Creek,
Name of stream, lake, or other source.

2. The amount of water applied for is 8/10 second-feet.
One second-foot equals 40 miners' inches.

3. The water to be used for Irrigation and domestic.
Irrigation, power, mining, manufacturing, domestic, or other use.

4. The water is to be diverted from its source at the following point: 10560 ft South 78° West from Northwest corner of Section 24,
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated
Twp. 9 North, R. 65 East, M.D.B & M.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

(a) Number of acres to be irrigated is 80

(b) Description of land to be irrigated E½ of NE¼ of Section 23,
Describe by legal subdivision, or if on unsurveyed land it
Twp. 9 North, Range 65 East, M.D. B & M.
should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

(c) Irrigation will begin about April 15th and end about October 15th, of each year.
Month. Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

(d) Power to be developed is horse power.

(e) Works to be located
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.

(f) Point of return of water to stream No
Describe in same manner as point of diversion.

(g) Remarks

DESCRIPTION OF PROPOSED WORKS

Ditch

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works 250.00

6. Estimated time required to construct works 90 days

7. Remarks

For use of applicant.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the source and in conjunction with permit No. 3858, the same land being described in both filings. The amount of water herein allowed is placed at Eight tenths of a cubic foot per second (0.8), so that such quantity may be diverted and used in the event that there is no water whatever available in the source described in permit No. 3858. However, the total amount of water to be diverted from the combined sources described in these two permits shall not exceed the statutory allowance of Eight tenths of a cubic foot per second (0.8) for the 80 acres of land enumerated. The applicant will be required at the time of filing proof of beneficial use of water to definitely segregate the areas of land which obtain water for irrigation purposes from each of these sources so that certificates may be issued for the land to which the waters of each source are appurtenant. A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times.

Work must be prosecuted with reasonable diligence and be completed on or before August 14, 1917.

Application of water to beneficial use shall be made on or before May 14, 1920. Proof of the application of water to beneficial use must be filed with State Engineer on or before June 14, 1920.

WITNESS MY HAND AND SEAL this 14th day of November, 1916.

Cancelled Jan 7, 1918 because of failure of applicant to comply with provisions of permit.
