IN THE OFFICE OF THE STATE ENGINEER OF THE STATE OF NEVADA

In the Matter of Application Number 62436
Filed By U.S. Fish & Wildlife Service
On September 4 , 1996 , To Appropriate The
Waters of: Big Springs (Lonetree Spring)

FILED
FEB 18 1997
STATE ENGINEER'S OFFICE

ComesNow See Attached
Printed or typed name of Protestant

Whose post office address is
Street No. Or P.O. Box, City, State and Zip Code

whose occupation is , and protests the granting

of Application Number 62436, filed on September 4, 19 96

by United States Fish & Wildlife Service to appropriate the

waters of Big Springs (Lonetree Spring) situated in Pahranagat Valley, Lincoln
Underground or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:
USF &WS has proposed a recovery Plan for the Pahranagat Valley Chub & other aquatic species that will infringe upon private property and water rights of the residents of the Valley. USF&WS proposal has been unanimously opposed by the owners of said property & water rights holders as well as residents of the community. This application is seen as a way to avoid settling the USF&WS disagreement with the citizens of Pahranagat Valley. The various recovery plans proposed will adversely affect the economy, custom and culture of Pahranagat Valley Residents and the residents of Lincoln County. The new use is to support and maintain wildlife, the current use, the change does not seem to make sense. We protest change of season of use, and the manner of beneficial use. The change of season and extension ofmonths of use can and will have negative impacts on the surrounding water rights holders. We question federal ownership of water, NRS was added to in 1995 which allowed federal water holdings jointly with residents. The USF&WS has not maintained their channel so water cannot reach them, the channel is a flood hazard and threatens all private property along the chanel. The proposal doesn't seem to be necessary in view of the fact that the USF&WS already has rights and the proposed change of customary uses can have a negative impact on the other water rights that use the water for irrigation. The refuge has a noxious week problem that stopping irrigation will aggrivate--the noxious weeds will then threaten the agricultural businesses in the valley. USF&WS has not proven to be a good neighbor and has not kept up with their agreements to allow cattle to use the water, they fenced it off after agreeing to allow continued use. This history along with other proposals the this agency is involved with is seen as a threat to property rights, economy and the culture of the valley. The service 'took' all the water 20 years ago and then the courts gave it back. The stock water rights must be retained, and the service not allowed to 'take' water in times of drought.

THEREFORE the Protestant requests that the application be denied
Denied, issued subject to prior rights, etc., as the case may be

and that an order be entered for such as relief as the State Engineer deems just and proper.

Signed Shelley Wadsworth
