APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the stream system of which this source is a tributary. The amount of water herein granted is placed at the full statutory allowance of eleven and six tenths (11.6) cubic feet per second for the total acreage of land herein described, notwithstanding the fact that a full water right from Brundridge Creek under permit No. 4188 is also granted one of these applicants for a portion of such land. In this manner such amount of water may be diverted and used in the event no water whatever is available from the said Brundridge Creek. However, the total amount of water granted under both permits Nos. 4176 and 4188 must not exceed the statutory allowance for the maximum area of land described in both permits. A portion of the land described in this permit and duplicated in permit No. 4188 is already irrigated according to a map filed in this office in the name of the Palo Alto Land & Livestock Co. Such land entitled to a vested right from the source herein described, if any, will be eliminated from the final certificate under this permit, when issued, and the applicants will be required, at the time of filing proof of beneficial use of water, to definitely segregate the remaining areas of land which are irrigated from each of the sources described in this permit and permit No. 4188, in order that certificates can be issued for the land to which the water of each source is appurtenant. A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that applicants agree to the terms herein contained.

use must be filed with State Engineer.

Proof of labor filed JUL 12 1917

Map filed JUL 19 1917

Proof of completion of work filed. MAY 30 1919

Cultural Map Filed Jan. 10-1924.

Proof of Beneficial use filed JAN 11 1938

Certificate No. 2385 Issued 6/14/38
