APPROVAL OF STATE ENGINEER

The number of this permit is 15.

Date of receipt of first application September 13, 1905.

Returned to applicant for correction _____, 190 .

Recorded in book A, page 15.

Approved November 13, 1905.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Nevada, and hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated not more than 2 1/2 cubic feet per second.

The construction of the within described works to be commenced not later than

February 1st, 1906

One-fifth of the work above specified to be completed on or before August 1, 1906

The whole of said work to be completed on or before February 1, 1907

The time for the proof of beneficial use of water appropriated in accordance here-

with, to extend to February 1, 1907

Witness my hand this thirteenth day of November, 1905.

Henry Threlkeld

State Engineer.

REMARKS

This appropriation was not perfected

Inasmuch as this appropriation is to be made upon land probably unsurveyed, it was not possible to locate exactly the point of diversion. It is understood, however, by the applicant and the State Engineer, that this diversion must take place at a point below what is known as the "Breen Ranch" and is for surplus water not now required to irrigate the above named ranch.
