APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the source. The State reserves the right to regulate the use of the water herein granted at all times. Reference is here made to permits numbers 2547, 2548, and 2550, which cover some of the land herein enumerated; numbers 2547, 2548, and 2550 being granted for a portion of the excess flow, and this permit being granted for the storage of flood waters in a reservoir. (Stream flow records available do not show this amount of water). The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 11,000 acre feet per annum for storage.

Actual construction work shall begin on or before May 30, 1915.

Proof of commencement of work shall be filed before June 30, 1915.

Work must be prosecuted with reasonable diligence and be completed on or before May 30, 1918.

Application of water to beneficial use shall be made on or before November 30, 1923.

Proof of the application of water to beneficial use must be filed with the State Engineer on or before December 30, 1923.

WITNESS MY HAND AND SEAL this 30th day of December, 1914.
