APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the stream system of which this source is a tributary and is for the flow only after it fails to reach the diversions of all prior rights lower on the stream. Each and every year, after the water ceases to reach all diversions above mentioned, the applicant must give this office, and the owners of the lower diversions, notice at least five days in advance of the time he desires to divert the water, and obtain express permission from the State Engineer to commence diversion under this permit. If any diversion of water is made without complying with the above terms, it will be considered ground for the revocation of this permit, it being understood that such permit could not be issued without invading the rights of others except as above provided. A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times.

Work must be prosecuted with reasonable diligence and be completed on or before November 12, 1918.

Application of water to beneficial use shall be made on or before November 12, 1922. Proof of the application of water to beneficial use must be filed with State Engineer on or before December 12, 1922.

Proof of labor filed DEC -6 1916

Map filed JUN -6 1917

WITNESS MY HAND AND SEAL this 12th day of August, 1916.

W. M. Kamm

State Engineer.

Cancelled Oct. 7, 1931 because of failure of applicant to comply with provisions of permit.
