ASSIGNED

APPLICATION FOR PERMIT Serial No. 4042

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Rate of first receipt and filing in State Engineer's office JUN 29 1916
Returned to applicant for correction
Corrected application filed

The undersigned Steven Doutre,
Name of applicant.
of Aurum, County of White Pine,
State of Nevada, hereby makes application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation give date and place of incorporation.)

1. The source of the proposed appropriation is Channel of Trail
Name of stream, lake, or other source.
and Fandango Creeks(which are combined) below their confluence.

2. The amount of water applied for is Two second-feet.
One second-foot equals 40 miners' inches.

3. The water to be used for Irrigation and domestic use.
Irrigation, power, mining, manufacturing, domestic, or other use.

4. The water is to be diverted from its source at the following point: Approximately 300 feet South of the NW corner of the SW¼
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated
of NE¼ of Sec. 11, Township 19 N.R. 66 E., M.D.M.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

(a) Number of acres to be irrigated is 480 acres

(b) Description of land to be irrigated NE¼ Sec. 11; E½ SE¼ Sec.
Describe by legal subdivision, or if on unsurveyed land it
11, SW¼ SE¼ Sec. 11, NW¼ NE¼ Sec. 14, W½ NW¼ Sec. 12 and W½ SW¼
should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.
Sec. 12, all in Township 19 N.R. 66 E., M.D.M.

(c) Irrigation will begin about March and end about
Month.
October, of each year.
Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

(d) Power to be developed is horse power.

(e) Works to be located
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.

(f) Point of return of water to stream No
Describe in same manner as point of diversion.

(g) Remarks

DESCRIPTION OF PROPOSED WORKS

Earth and rock dam in channel and ditches to point of use.

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works $500.00

6. Estimated time required to construct works one month.

7. Remarks The waters of Kalazamoo Creek, Trail and Fandango Creeks and Meadow and North Creeks are combined for use on this land, a part of which has been thus used on part of this land before A.D. 1905.

For use of applicant.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the source and is for water for the following described land only: S½ NE¼ and E½ SE¼ Sec. 11, W½ SW¼ Sec. 12 and SW¼ NW¼ Sec. 12, all in T. 19 N. R. 66 E. The permit is also issued in conjunction with permits Nos. 4041 and 4043, each of which allow water for a portion of the land granted a water right hereunder. The full amount of water applied for under each one of the three permits is allowed, thus permitting the applicant to divert such amount of water from the source described in any one of the permits in case of a shortage in any of the other sources involved. However, the total amount of water to be diverted from the combined sources described in the three permits shall not exceed the statutory allowance for the maximum area of land enumerated in such permits. The applicant will be required, at the time of filing proofs of beneficial use of water, to definitely segregate the areas of land which obtain water for irrigation from each of the sources involved in the said permits, in order that certificates can be issued for the land to which the water of each source is appurtenant.

A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that applicant agrees to the terms herein contained.
