APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the stream system of which this source is a tributary. The full statutory allowance of three (3.0) cubic feet of water per second for the irrigation of 300 acres of land, that being the maximum amount described by legal subdivisions, is herein granted, nothwithstanding the fact that a portion of such land is listed under proof of appropriation No. 00572. The acreage in conflict entitled to a vested right, if any, will be deducted from any certificate which may eventually be issued under this permit.

A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that applicant agrees to the terms herein contained.

Proof of commencement of work shall be filed before June 26, 1917.

Work must be prosecuted with reasonable diligence and be completed on or before November 26, 1917.

Application of water to beneficial use shall be made on or before May 26, 1923. Proof of the application of water to beneficial use must be filed with State Engineer on or before June 26, 1923.

Proof of labor filed JUN 11 1917 WITNESS MY HAND AND SEAL this 26th day

Map filed JUL 9 1917 of December, 1916.

Proof of completion of work filed NOV 10 1917

Cancelled Jan. 2, 1926 because of failure of applicant to comply with provisions of permit.

Robert A. Allen State Engineer.

W. A. McKay

State Engineer.
