to _____ which is the point of intended use.

REMARKS:

(This space is not to be written in by applicants.)

This water comes from springs located in Douglas Canyon which is about six miles South-west of Preston Nevada and is as far as able to ascertain on unsurveyed land: Water will be used in vicinity of East Spring and extend over other ground near by.

APPROVAL OF STATE ENGINEER

The number of this permit is 699
Date of receipt of first application September 26th, 19 07
Returned to applicant for correction
Corrected application received
Publication of notice completed November 7th, 19 07
Recorded in Book " C ", page 699
Approved January 25th, 1913.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Nevada, and hereby grant the same, subject to the following limitations and conditions:

- The amount of water to be appropriated not more than 0.4 cubic feet per second.
The construction of the within-described works to be commenced not later than Apr. 25-1913
One-fifth of the work specified to be completed on or before June 25-1913.
The whole of said work to be completed on or before October 25th, 1913.
The time for the proof of beneficial use of water appropriated in accordance herewith, to extend to October 25-1915.
Witness my hand this 25th. day of January, 1913.

W. Kearney
State Engineer

This permit is issued subject to the prior right of Adams & McGill for stockwatering purposes. The water must be so diverted and handled that whenever said Adams & McGill have sheep or other stock in the vicinity of the spring and desire water for them that the right herein granted must not interfere with such stockwatering use.

The right is granted for the irrigation of forty acres of land designated as the NW 1/4 of the SE 1/4 of Section 32, T.12 N., R. 61 E.M.D.B. & M.

W. Kearney
State Engineer.
