Approved, FEB 17 1911 *190*_____.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Nevada, and hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated not more than 40 *cubic feet per second.*

The construction of the within described works to be commenced not later than May 1st 1911

One-fifth of the work above specified to be completed on or before May 1st 1913

The whole of said work to be completed on or before May 1st 1914

The time for the proof of beneficial use of water appropriated in accordance herewith, to extend to October 1st 1916

Witness my hand this Sixteenth *day of* February, *1911*

It is proposed to use about ten feet in depth below low water mark of Washoe Lake, and if possible to raise the Lake ten feet above low water mark during flood season, by means of suitable dam.

This application is also intended to apply such excess water of the Lake and of Steamboat Creek as may be diverted therefrom by the California-Nevada Electric Power Company.

To be diverted by me at a point in Steamboat Creek where said power company returns such waters to Steamboat Creek in Pleasant Valley, as set forth in their application now on file in the State Engineer's office at Carson.

(Signed) J. L. Robinson.
