The Descriptions under e.f. and the description of proposed works are based on the record of the original survey. There may be some discrepancies existing between the description so given and what might be under the resurvey made during 1917. There can, however, be no material conflicts in as much as the reservoir and the proposed site for the power plant are the only logical ones existing in that section of the country.

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed _____ cubic feet per second.

Actual construction work shall begin on or before _____

Proof of commencement of work shall be filed before _____
