APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the 1.0 c.f.s., but not to exceed a seasonal duty of 4.0 acre feet per acre of land irrigated from any and/or all sources herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A substantial headgate and measuring device must be installed and maintained to facilitate the measurement and control of water. This permit is further subject to the final allocation of the State of Nevada under the California-Nevada Interstate Compact Commission. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second but not to exceed a yearly duty of 4.0 acre feet per acre of land irrigated from any and/or all sources.

Actual construction work shall begin on or before November 1, 1967

Proof of commencement of work shall be filed before December 1, 1967

Work must be prosecuted with reasonable diligence and be completed on or before November 1, 1968

Proof of completion of work shall be filed before December 1, 1968

Application of water to beneficial use shall be made on or before November 1, 1971

Proof of the application of water to beneficial use shall be filed on or before December 1, 1971

Map in support of proof of beneficial use shall be filed on or before December 1, 1971
