AMENDED

APPLICATION FOR PERMIT Serial No. 8295

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office AUG 15 1927
Returned to applicant for correction NOV 23 1927
Corrected application filed NOV 23 1927

The undersigned The Glenbrook Company, a corporation,
Name of applicant
of San Francisco, County of San Francisco,
State of California, hereby makes application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation.) Delaware 1926.

1. The source of the proposed appropriation is North Canyon Creek, sometimes called Slaughter House Creek, or Davis Creek, including all tributaries ~~and the unappropriated waters, normal and flood, within the watershed~~ of said stream system, near Lake Tahoe, Nevada, which is to be stored in reservoir heretofore constructed by C. L. Fulstone, as explained under remarks (g)
Name of stream, lake, or other source
2. The amount of water applied for is 500 acre feet. ~~second-feet~~
One second-foot equals 40 miner's inches
3. The water to be used for power purposes.
Irrigation, power, mining, manufacturing, domestic, or other use
4. The water is to be diverted from its source at the following point:
in the SW¼ of Sec. 36, T. 15 N; R. 18 E., M.D.B.&M.
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section-corner. If on unsurveyed land, it should be so stated.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

(a) Number of acres to be irrigated is

(b) Description of land to be irrigated
Describe by legal subdivision, or if on unsurveyed land it should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

(c) Irrigation will begin about The year round and end about
Month
Month, of each year.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

(d) Power to be developed is 300 horsepower.

(e) Works to be located in NE¼ of SW¼ Sec.35, T.15N; R.18E., M.D.B.&M.
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section-corner.

(f) Point of return of water to stream: water will not be returned to the stream, but will be used for irrigation of Pray Meadows and adjacent lands; below power house it will flow directly into the present irrigation ditches of this applicant, and will be used for irrigation under vested water rights, and as provided for in an application to use said water for irrigation purposes, said application being filed simultaneously herewith.

(g) Remarks: The water is to be stored and impounded in and by raising what is known as the Fulstone Reservoir, in Spooner Meadows, in Sec. 1, T. 14 N.R. 18E. Applicant does not waive any vested water rights by this application. Simultaneously herewith applicant files applications to impound in the same reservoir, for the same purposes, the waters of Bliss Creek and of Spooner Meadows Creek, and also application to use said stored waters for irrigation purposes.

DESCRIPTION OF PROPOSED WORKS

Water is to be diverted by dam situated as above stated; thence carried by ditch, flume, and/or pipe to what is known as the Fulstone Reservoir, situated in the W½ of NE¼, E½ of NW¼, NE¼ of SW¼, and NW¼ of SE¼ of Sec. 1, T. 14 N; R. 18 E., in Spooner Meadows; it is proposed to raise the impounding dam of this reservoir from 3 to 5 feet, and to store and impound therein the said water, above the Fulstone Reservoir water (if any be therein), submerging whatever lands are necessary, in the subdivisions above listed. From the reservoir the water is to be carried by ditch, flume, and/or pipe to power house situated in NE¼ of SW¼ of Sec. 35, T. 15N; R. 18 E., as shown by map filed herewith. From power house the water will flow directly into present irrigation ditches of applicant and used for irrigation as above stated; until such time as the power project is completed, the stored water will be conveyed from reservoir through the natural channels of Spooner Meadows and North Canyon Creeks into the said present irrigation ditches of this applicant. No vested rights are waived by this application.

The Glenbrook Company, Applicant.
