APPROVAL OF STATE ENGINEER

Protested September 15, 1933, by John G. Taylor, Inc.

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights. It is understood that the one cubic foot of water per second herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependant upon the amount of water actually placed to a beneficial use. Accurate measurements of the water placed to a beneficial use must be included in the proof of such use when filed. In issuing this permit it is understood that the permittee will prevent any detrimental pollution of the waters of the Owyhee River as a result of their milling operations. The State reserves the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed one (1.0) cubic foot per second.

Actual construction work shall begin on or before December 27, 1938

Proof of commencement of work shall be filed before January 27, 1939

Work must be prosecuted with reasonable diligence and be completed on or before December 27, 1942

Proof of completion of work shall be filed before January 27, 1943

Application of water to beneficial use shall be made on or before December 27, 1944. Proof of the application of water to beneficial use must be filed with State Engineer on or before January 27, 1945

WITNESS MY HAND AND SEAL this 28th day of December, 1937

Map Filed July 8 1933

Proof of commencement of work filed DEC 15 1938

Cancelled JAN 12 1944 because of failure of applicant to comply with provisions of permit.
