APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the source. A substantial weir must be installed and maintained to facilitate the measurement of water. This permit is for the appropriation of flood and waste waters as may be available at the proposed point of diversion and the granting of this permit does not guarantee the continuance of such waste water. The appropriation of water under this permit is appurtenant to the same lands as water under Permits Nos. 10807 and 10809. These permits are therefore supplemental to each other. The State reserves the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.8 cubic feet per second.

Actual construction work shall begin on or before September 29, 1945

Proof of commencement of work shall be filed before October 29, 1945

Work must be prosecuted with reasonable diligence and be completed on or before July 17, 1947

Proof of completion of work shall be filed before August 17, 1947

Application of water to beneficial use shall be made on or before July 17, 1948. Proof of the application of water to beneficial use must be filed with State Engineer on or before August 17, 1948.
