, Engineer.

PROTESTED by Madison Anderson, August 5, 1915.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the stream system of which this source is a tributary and is for the flow only after it fails to reach the diversions of all prior rights lower on the stream. Each and every year, after the water ceases to reach all diversions above mentioned, the applicant must give this office, and the owners of all lower diversions, notice at least five days in advance of the time he desires to divert the water, and obtain express permission from the State Engineer to commence diversion under this permit. If any diversion of water is made without complying with the above terms, it will be considered ground for the revocation of this permit, it being understood that such permit could not be issued without invading the rights of others except as herein provided. A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times.

Application of water to beneficial use shall be made on or before November 4, 1922. Proof of the application of water to beneficial use must be filed with State Engineer on or before December 4, 1922.

Map filed MAY - 3 1917

WITNESS MY HAND AND SEAL this 4th, day

Proof of labor filed JUN 16 1917

of November, 1916.

Proof of completion of work filed, DEC 26 1918

*W.M. Seamey*  
State Engineer.

Cancelled Jan. 1, 1926 because of failure of applicant to comply with provisions of permit.

*Robert A. Allen* State Engineer.
