Serial No. 13357

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED.

Date of first receipt and filing in State Engineer's office APR 6 1950

Returned to applicant for correction

Corrected application filed

The undersigned Willard Petersen, L. W. Petersen and Clarence Keller (Name of applicant.) of Hyrum, Hyrum and Ogden, County of Cache, Cache and Weber respectively State of Utah, hereby makes application for permission to change the nature and season of use of water heretofore appropriated under Certificate #1474 (State nature of right that is the basis of this application, *i. e.*, vested, decreed or permitted right.)

1. The source of water supply is underground
2. The quantity of water desired to be changed 0.10 Second Feet (Acre feet, second feet.)
3. The water is to be used for livestock watering purposes
4. The water heretofore used for irrigation purposes
5. Place of use under existing appropriation irrigating 10 acres of land (Under irrigation give number acres and description in respect to Government Land Survey; under any other use give location as being within a 40-acre subdivision.) located in the NE¼ SE¼ Sec. 33, T. 30 N., R. 69 E., MDB&M.
6. Proposed place of use under this application for the construction of (Under irrigation give number of acres and description in respect to Government Land Survey; under any other use give location as being within a 40-acre subdivision.) a storage tank and loading facilities for hauling water to livestock at other locations and the construction of watering troughs and reservoir in the NE¼ SE¼ Sec. 33, T. 30 N., R. 60 E., MDB&M for watering livestock at the spring.
7. The water is to be diverted from its source at the following point: S.83°43'30" W., 1,334 feet from the E¼ Sec. corner of Section 33 T.30 N. R. 69 E. MDB&M (Describe as being within a 40-acre subdivision of public survey or by course and distance to a section corner.)
8. The existing point of diversion under the former appropriation is as follows: same as number 7 (If point of diversion is not changed do not answer.)
9. Number and kind of animals proposed to be watered 5,000 head of sheep.
10. Use will begin about Nov. 1 (Month) and end about March 31 (Month) of each year.
11. The water has been used heretofore during the months of March 1 - September 1 of each year
12. Remarks It is intended to develop this source of water for the watering of the above livestock from Nov.1 - March 31 of each winter grazing season as this source of water is located on a livestock driveway servicing thes stock as they trail to and from their winter range lands in Nevada. The loading device is necessary for loading water on trucks for movement to other areas that are a considerable distance from water and it is found to be of more benefit to the livestock and to the large haul of water to them rather than trail to the water.

13. Description of proposed works It is proposed to install approximately 500 feet of 2 inch pipe commencing at the above point of diversion to carry the water from the source across the highway where a storage tank of about 7,000 gallon in capacity will be installed to facilitate the loading of water and the watering of livestock at the source. Livestock troughs will be installed sufficient to water approximately 3,000 head of sheep at one°

14. Estimated cost of works $1,500

15. Estimated time required to construct the works is Approximately one month.

Willard Petersen, L. W. Peterson and Clarence Keller/ Applicant
