APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed Three & 2/10 cubic feet per second. (3.2)

Actual construction work shall begin on or before November 4, 1916.

Proof of commencement of work shall be filed before December 4, 1916.

Work must be prosecuted with reasonable diligence and be completed on or before November 4, 1917.

Application of water to beneficial use shall be made on or before May 4, 1923.

Proof of the application of water to beneficial use must be filed with State Engineer on or before June 4, 1923.

Proof of labor filed MAY 26 1917

Map filed MAY 23 1917

WITNESS MY HAND AND SEAL this 4th, day

of August, 1916.

Proof of completion of work filed APR - 8 1918
Filing of further proofs under this application allowed by virtue of application #7014 to change the place of use.

W. M. Kearney
State Engineer.

This permit is issued subject to all prior rights on the source and in conjunction with permits Nos. 3627 and 3920, a portion of the same land being described in all three filings. The amount of water herein granted is placed at 3.2 cubic feet per second for the full acreage applied for so that such amount of water may be diverted and used in the event that there is a shortage in the sources described in permits Nos. 3627 and 3920. However, the total amount of water which may be diverted from the combined sources described in these three filings must not exceed 10.0 cubic feet per second or the statutory allowance for the maximum acreage of land to be irrigated. The applicant will be required at the time of filing proof of beneficial use of water to definitely segregate the areas of land which obtain water for irrigation purposes from each source described in these three permits. A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times.
