APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing appli-

cation, and do hereby grant the same, subject to the following lim-
 itations and conditions: ~~This permit is issued subject to all prior rights on the source and in conjunction with permit No. 3611, the same land being described in both filings. The amount of water herein granted is placed at 0.8 of a cubic foot per second, 80 acres being the maximum amount of land described by legal subdivision, so that such amount of water may be diverted and used in the event that there is no water whatever available in the source described in permit No. 3611. The applicant will be required at the time of filing proof of beneficial use of water to definitely segregate the areas of land which obtain water for irrigation purposes from each source described in these two permits. A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any time. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed~~
 Eight tenths cubic foot per second. (0.8)

Actual construction work shall begin on or before May 15, 1917.

Proof of commencement of work shall be filed before June 15, 1917.

Work must be prosecuted with reasonable diligence and be completed on or before June 1, 1917.

Application of water to beneficial use shall be made on or before May 15, 1920.

Proof of the application of water to beneficial use must be filed with State Engineer on or before June 15, 1920.

WITNESS MY HAND AND SEAL this 22nd, day

of August, 1916.
 Canceled JAN 22 1918 because of failure of applicant to comply with provisions of permit.
