APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all prior rights on the source. The right to the use of water for power purposes is hereby granted for the entire year, but the right for mining and milling purposes is limited to the non-irrigation season, namely from October 1st of each year to April 1st, of the following year. It is also provided and made a condition of this permit that all water containing tailings or other deleterious matter shall be settled and the cleared water returned to the stream; and that where cyanide or other poisonous matter is contained in solution, the water must not be returned to the stream. The State reserves the right to regulate the use of water at any time. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed Ten (10) cubic feet per second.

Actual construction work shall begin on or before August 1, 1916.

Proof of commencement of work shall be filed before September 1, 1916.

Work must be prosecuted with reasonable diligence and be completed on or before August 1, 1917.

Application of water to beneficial use shall be made on or before August 1, 1919. Proof of the application of water to beneficial

use must be filed with State Engineer on or before September 1, 1919.

Map filed MAY 31 1916

Proof of labor filed AUG 25 1916

WITNESS MY HAND AND SEAL this 1st day of May, 1916.

Cancelled DEC 27 1918 because of failure of applicant to comply with provisions of permit.
