APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

There being no cultural map accompanying the proof of appropriation, No. 01453, to indicate that the 120 acres described in the proof is under cultivation, this approval is made conditional that in the event the cultural survey when made shows a less area in cultivation within the subdivisions named in the proof and from which the water is to be taken, the remaining number of acres required to constitute the total 120 acres of water right changed will be taken from the adjoining subdivisions, it being estimated upon examination that there are in excess of 120 acres under irrigation in the subdivisions named and the adjoining ones owned or possessed by the applicant. The applicant will have the opportunity of designating the subdivisions from which the water is to be taken.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed One & 2/10 (1.2) cubic feet per second.

Actual construction work shall begin on or before September 13, 1916. Proof of commencement of work shall be filed before October 13, 1916. Work must be prosecuted with reasonable diligence and be completed on or before September 13, 1916.

Application of water to beneficial use shall be made on or before May 13, 1920. Proof of the application of water to beneficial use must be filed with State Engineer on or before June 13, 1920.
