APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the 5.0 c.f.s., and not to exceed 55.5 mg annually herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A meter must be installed in the discharge pipeline near the point of diversion and accurate measurement must be kept of water placed to beneficial use. This permit is subject to the final allocation of the State of Nevada under the Calif.-Nev.-Interstate Compact Commission. The State retains the right to regulate the use of the water herein granted at any and all times. The total diversion of water for the use proposed under this permit and permit 12081 shall not exceed 55.5 mg annually from any and all sources. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 5.0 cubic feet per second., but not to exceed 55.5 mg annually.

Actual construction work shall begin on or before December 21, 1968

Proof of commencement of work shall be filed before January 21, 1969

Work must be prosecuted with reasonable diligence and be completed on or before December 21, 1969

Proof of completion of work shall be filed before January 21, 1970

Application of water to beneficial use shall be made on or before December 21, 1972. Proof of the application of water to beneficial use must be filed with State Engineer on or before January 21, 1973
