APPROVAL OF STATE ENGINEER.

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion and place of use of the water right granted under permit No. 3643, is issued with the same conditions imposed in said permit No. 3643.

The full statutory allowance of six and eight-tenths cubic feet of water per second, the amount granted in said permit No. 3643, is allowed under this proposed change, notwithstanding the fact that a portion of the land to be irrigated hereunder is also described in proofs of appropriation Nos. 01513 and 01514. The land entitled to a vested water right, if any, will be deducted from any certificate which may eventually be issued under this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed six and eight-tenths (6.8) cubic feet per second.

Actual construction work shall begin on or before December 24th, 1917

Proof of commencement of work shall be filed before January 24th, 1918.

Work must be prosecuted with reasonable diligence and be completed on or before April 24th, 1918.

Proof of completion of work shall be filed before May 24th, 1918.

Application of water to beneficial use shall be made on or before April 24th, 1923. Proof of the application of water to beneficial use must be filed with State Engineer on or before May 24th, 1923.

WITNESS MY HAND AND SEAL this 24th day of August, 1917.
