11. Remarks This water will be used to supply 135 single family lots, 100 apartment units, approximately 4.0 acres of small office buildings, and 10.0 acres to be used for a complete shopping center. This is in addition to the use sep up under Permit No. 20054. Water would be supplied from the same well drilled under Permit 20054, however, when the well was drilled it was moved about 200 feet from the proposed site. That accounts for the small change in the point of diversion. The well drilled under Permit 20054 is an exceptionally good producer and the reason for this application is to request additional water to be used as designated and within the boundaries of the franchise of the Spring Mountain Water Company.
