APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. A meter must be installed in the pipe line, near the point of diversion, so that accurate measurements of water placed to beneficial use may be obtained. It is understood that the water right must allow for a reasonable lowering of the static water level at permittees well due to other ground water development in the area. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.0 cubic feet per second.

Actual construction work shall begin on or before November 10, 1951

Proof of commencement of work shall be filed before December 10, 1951

Work must be prosecuted with reasonable diligence and be completed on or before November 10, 1953

Proof of completion of work shall be filed before December 10, 1953

Application of water to beneficial use shall be made on or before November 10, 1956. Proof of the application of water to beneficial use must be filed with State Engineer on or before December 10, 1956
