Month Month

(i) Remarks Map of survey filed with previous application for permit Serial No. 10111, dated April 13, 1937

DESCRIPTION OF PROPOSED WORKS

It is proposed to develop the additional flow at the spring or to

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

develop additional water in the adjacent area to replace the water

is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

diverted directly from the spring, to use 10" flow line to pumping plant where water will be delivered to mains installed under Permits Nos. 9704 and 9799.

5. **Estimated cost of works** $5,000.00

6. **Estimated time required to construct works** 6 months

7. **Remarks** It is estimated that about 25% of the water will be returned

For use of applicant.

to the stream system throught the sewerage system. If the other 75% can not be developed in the spring area, the balance of the return flow will be supplied from one of the municipal wells. This spring water is necessary for use of the Town, being much better quality than that nowobtained from wells. THE TOWN OF CARLIN, NEVADA, **Applicant.**

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the 3.0 cubic feet of water per second herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A suitable measuring device must be installed and accurate measurements of the water placed to a beneficial use must be included in the proof of such use when filed. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.0 cubic feet per second.

Actual construction work shall begin on or before April 5, 1957

Proof of commencement of work shall be filed before May 5, 1957

Work must be prosecuted with reasonable diligence and be completed on or before April 5, 1958

Proof of completion of work shall be filed before May 5, 1958

Application of water to beneficial use shall be made on or before April 5, 1961. Proof of the application of water to beneficial use must be filed with State Engineer on or before May 5, 1961

WITNESS MY HAND AND SEAL this 5th day of October, 1956

State Engineer.
