APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore claimed under Proof of Appropriation V08912 is issued subject to the terms and conditions imposed in said Proof of Appropriation V08912 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water within the described place of use (Black Springs GID) under Permit 30366, Certificate 10152; Permit 30446, Certificate 10153; Permit 34012, Certificate 10157; Permit 42225, Certificate 14021; and Permit 71928 shall not exceed 56.47 acre feet annually.

The total combined duty of water from this point of diversion under Permit 42225, Certificate 14021 and this permit shall not exceed 35.02 acre feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued subject to the final determination of any adjudication proceedings in the matter of the underground waters of Lemmon Valley pursuant to the Nevada Revised Statutes Chapters 533 and 534.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.0101 cubic feet per second or 2.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:	**November 18 2011**
Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:	**November 18 2012**
Map in support of proof of beneficial use shall be filed on or before:	**N/A**

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,
