Corrected application filed

Map filed APR 06 2005 under 72487

****

The applicant **Granite Fox Power, LLC, a Delaware limited liability company** hereby make s application for permission to change the **point of diversion, place and manner of use** of water heretofore appropriated under **Proof No. 09091**

****

1. The source of water is **Underground (Artesian Well)**

2. The amount of water to be changed **0.15 cfs – 152.04 acre-feet annually**

3. The water to be used for **Industrial Power Generation, and Domestic**

4. The water heretofore permitted for **Irrigation.**

5. The water is to be diverted at the following point **SW¼ NW¼ Section 4 T31N, R20E, MDM or at a point from which the NW corner of Section 6, said township and range bears N 81° 51' 10" W, a distance of 11,069.1 feet.**

6. The existing permitted point of diversion is located within **NE¼ SW¼, Section 4, T31N, R20E, MDM, or at a point from which the NW corner of said Section 4 bears N 36° 49' 31" W, a distance of 3,210.33 feet.**

7. Proposed place of use **See Attachment "A"**

8. Existing place of use **Portion of SW¼ NW¼, SE¼ NW¼, NE¼ SW¼ of Section 4, T31N, R20E, MDM. Totaling 38.01 acres.**

9. Use will be from **January 1** to **December 31** of each year.

10. Use was permitted from **April 1** to **October 31** of each year.

11. Description of proposed works **Drilled and cased well, submersible pump and electric motor, electrical control system, piping system to collection reservoir, thence piping and pumping systems to storage reservoir on place of use. Water will thereafter be piped to the electrical generating facilities.**

12. Estimated cost of works **Each well will cost approximately $200,000.00, total water system will be approximately $30 million.**

13. Estimated time required to construct works **5 years**

14. Estimated time required to complete the application of water to beneficial use **10 years**

72490

15. Remarks: **This application to change is being filed in the name of Granite Fox Power, LLC, a Delaware limited liability company. At a later date, simultaneously to or prior to the State Engineer granting the application to change, the chain of title will be complete from the owner of record as reflected on the State Engineer's records to the Applicant. The Applicant intends to construct a 1450 megawatt coal fired power plant, which power plant will be equippped with state of the art environmental controls. The total consumptive duty to be placed to be beneficial use and utilized at the plant, will be determined upon filing the Proofs of Application of Water to Beneficial Use. The water transferred pursuant to this application to change is based upon previously permitted water rights, or claims of vested rights. New appropriations of water are not being sought by the Applicant.**
