9. Use will be from **January 1** to **December 31** of each year.

10. Use was permitted from **January 1** to **December 31** of each year.

11. Description of proposed works **Existing drilled well equipped with pump and motor that is connected to the distribution system.**

12. Estimated cost of works **estimate $300,000**

13. Estimated time required to construct works **A well with 8" casing and screen is already completed to 258 feet. The well is equipped with a 25 HP submersible pump and motor.**

14. Estimated time required to complete the application of water to beneficial use **5 years**

15. Remarks: **The well serves the residents of Baker, Nevada. There are 85 connections to the distribution system. Recently the water rights for the well were certificated at last years duty of 10.787 million gallons and diversion rate of 1.0 cfs. Currently the water rights equal the annual duty and there is no excess duty for growth or high demand years. The intent of this change application is to increase the annual duty capacity of the quasi-municipal well by transferring annual duty only and not diversion rate under Permit No. 69873. Adequate diversion rate was included as part of Certificate No. 16454.**
