APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This Permit is issued subject to all prior rights on the source. The State reserves the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed .0086 or sufficient to water 35 head of cattle and 1200 sheep. cubic feet per second.

Actual construction work shall begin on or before Nov. 1, 1930

Proof of commencement of work shall be filed before Dec. 1, 1930

Work must be prosecuted with reasonable diligence and be completed on or before Nov. 1, 1932

Proof of completion of work shall be filed before Dec. 1, 1932

Application of water to beneficial use shall be made on or before

Nov. 1, 1933. Proof of the application of water to beneficial

use must be filed with State Engineer on or before Dec. 1, 1933

WITNESS MY HAND AND SEAL this 3rd day

of July, 1930.

B. water

Filed

104

Applicant and his predecessors have used water from this source for many years last past and a vested right is claimed, which said right is already recorded in the state engineer's office by proof of appropriation No. 01424, and which said right is not waived by virtue of the filing of this application. The real purpose of making this said application is to permit the applicant, who has been and is already using water from the source, to secure a permit under the law and thereafter a final certificate of water right under such permit, the issuing of such certificate being impossible at the present time thru any other means of procedure, due to the fact that the attorney general has ruled that the present law is inadequate to proceed with the determination of vested rights claimed for stockwatering purposes. Applicant is desirous of securing final certificates of water right to all of the sources used by him at an early date.
