APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source and is limited to what the well will produce but not to exceed 1.23 c.f.s. If well is flowing, a valve must be installed and maintained to prevent waste. A Parshall measuring flume must be installed and a method provided, either air line or opening, for measuring depths of water. It is understood that this right must allow for a reasonable lowering of the static water level at permittees well due to other ground water development in the area. This source is located within an area designated by the State Engineer pursuant to NRS 534.030; therefore the State retains the right to regulate the use of the water herein granted at any and all times. The land to be irrigated from this well is limited to 107 acres within the SE¼SW¼ Section 27, NW¼NW¼ Section 34 and NE¼NE¼ Section 33, T. 19 S., R. 53 E., M.D.B.&M.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.23 cubic feet per second and not to exceed a yearly duty of 5.0 acre feet per acre per land irrigated.

Actual construction work shall begin on or before August 3, 1960.

Proof of commencement of work shall be filed before September 3, 1960.

Work must be prosecuted with reasonable diligence and be completed on or before August 3, 1961.

Proof of completion of work shall be filed before September 3, 1961.

Application of water to beneficial use shall be made on or before August 3, 1963.

Proof of the application of water to beneficial use shall be filed on or before September 3, 1963.

Map in support of proof of beneficial use shall be filed on or before September 3, 1963.

Commencement of work filed SEP 7 1960

Completion of work filed SEP 7 1960

Proof of beneficial use filed
