# APPLICATION FOR PERMIT
## TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office FEB 18 1959

Returned to applicant for correction MAR 6 1959

Corrected application filed MAR 23 1959

Map filed FEB 9, 1959

The applicant Mesquite Farmstead Water Association

of Mesquite, County of Clark,

State of Nevada, hereby make S application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) Tenth Day of July, 1944

Carson City, Nevada

1. The source of the proposed appropriation is Underground
   Name of stream, lake or other source.

2. The amount of water applied for is 0.5 second-feet.
   One second-foot equals 448.83 gals. per min.

   (a) If stored in reservoir give number of acre-feet ..... acre-feet.

3. The water to be used for Municipal and Domestic purposes
   Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

   (a) Irrigation (state number of acres to be irrigated)

   (b) Stockwater (state number and kinds of animals to be watered)

   (c) Other use (describe fully under "No. 11. Remarks")

   (d) Power:

   (1) Horsepower developed

   (2) Point of return of water to stream

5. The water is to be diverted from its source at the following point: N. 1° 11' E. 2201 feet from the South ¼ corner of Sec. 21, T. 13 S., R. 71 East, M.D.B.&M. or in NW¼ SE¼ Said Section.
   Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land, it should be stated.

6. Place of use at the town of Mesquite in Section 16, T. 13 S., R. 71 East M.D.B.&M. The waters from this well are to supplement the waters from other sources and the pipe to be installed is to connect with the present system and be distributed wherever the pipes go for the residents of Mesquite located mostly in Section 16 said T. and Range.
   Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about Jan. 1st (Month) and end about Dec. 31st (Month), of each year.

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) The water is underground and is to be pumped to the surface and then conveyed by 4 inch Transite pipe to the present distribution system of the town of Mesquite, Nevada. The well is one drilled by the Tristate Metal Co. and sold to the town or Mesquite Farmstead Water Association in which name the community is operating.
   State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works $6,000.00

10. Estimated time required to construct works One year

11. Remarks Since this is for town purposes and some stock held within the limits of Mesquite Town and fields also Motels, Hotels, Service Stations, Restaurants as well as residences of the Community and the traveling public. Also some flower gardens about the homes of the town. The well is drilled and producing water but there remains the task of installing the pipe and beginning the service to the Community. The town is quite short of water and is anxious to secure all that it can to meet the growing demands upon the system.

Mesquite Farmstead Water Association, Applicant.

By s/ Geo. H. Bowles

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source and is limited to what the well will produce but not to exceed 0.5 c.f.s. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittees well due to other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept, and a method provided, either air line or opening, for measuring depth to water. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.5 cubic feet per second

Actual construction work shall begin on or before December 24, 1959

Proof of commencement of work shall be filed before January 24, 1960

Work must be prosecuted with reasonable diligence and be completed on or before December 24, 1960

Proof of completion of work shall be filed before January 24, 1961

Application of water to beneficial use shall be made on or before December 24, 1962

Proof of the application of water to beneficial use shall be filed on or before January 24, 1963

Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed JAN 11 1960
Completion of work filed JAN 11 1960
Proof of beneficial use filed JAN 21 1963
Cultural map filed
Certificate No. 5495 Issued 3/28/63 for 0.30 cfs for municipal use
