This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 18606, Certificate 5633 is issued subject to the terms and conditions imposed in said Permit 18606, Certificate 5633 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The total combined duty of water under Permits 82052, 82053, 82055, 82056 and 82057, having the same place of use, shall not exceed 89.425 acre-feet annually.
