Permit No. 84858

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee:	**DAVID AND LYNDA SUGASA**
Source:	**UNDERGROUND**
Basin:	**BUENA VISTA VALLEY**
Manner of Use:	**COMMERCIAL AND DOMESTIC**
Period of Use:	**JANUARY 1ST THROUGH DECEMBER 31ST**
Priority Date:	**02/23/2015**

****

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water granted herein at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.05 cubic feet per second or 7.84 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:	**December 4 2016**
Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:	**December 4 2018**
Map in support of proof of beneficial use shall be filed on or before:	**N/A**

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 4th day of **December, 2015**

P.E.

State Engineer

AMENDED

STATE ENGINEERS OFFICE

---

1. The source of water is Underground
   Name of the stream, lake, underground, spring or other sources.
2. The amount of water applied for is 0.05 c.f.s., not to exceed 7.84 AFA
   One second foot equals 448.83 gallons per minute.
   (a) If stored in a reservoir give the number of acre-feet N/A
3. The water is to be used for Commercial and Domestic
   Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
4. If use is for:
   (a) Irrigation, state number of acres to be irrigated N/A
   (b) Stockwater, state number and kind of animals N/A
   (c) Other use (describe fully in No. 12) Wildlife Sanctuary and ancillary facilities
   (d) Power:
      (1) Horsepower developed N/A
      (2) Point of return of water to stream N/A

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

Within the SE¼NE¼ Section 20, T. 31N., R. 35E., M.D.M., or at a point from which the NE Corner of said Section 20 bears North 28° 42' East, a distance of 2,195 feet.
Please refer to accompanying map.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

Within the E½ Section 20, T. 31N., R. 35E., M.D.M.
Please refer to accompanying map.

7. Use will begin about January 1 (Month and Day) and end about December 31 (Month and Day) of each year.

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Drilled well, pump, motor, meter, and storage and distribution facilities. Well will serve the wildlife sanctuary, a domestic house, and ancillary facilities.

9. Estimated cost of works: In excess of $26,000

10. Estimated time required to construct works: 1 year
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 10 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Applicant has developed a fully accredited wildlife sanctuary and animal rescue facility known as the Safe Haven Rescue Zoo. Initial development and infrastructure is complete. Growth of the Sanctuary and infrastructure is ongoing, with new enclosures, educational facilities and support buildings being developed at this time. Further growth to serve the need for facilities of this type is planned. Animals at the sanctuary come from all parts of the United States.
