APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 18725, Certificate 6555, is issued subject to the terms and conditions imposed in said Permit 18725, Certificate 6555 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

Permit No. 84986

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **not to exceed 0.0468 cubic feet per second and 33.9 acre-feet annually, or sufficient to water 1,500 head of cattle.**
