This permit, to change the point of diversion and manner of use of the waters of the Carson Slough heretofore claimed by Proof of Appropriation of Water V-10092, is issued with the understanding that no other rights on the source will be affected by the change proposed herein. 16. Miscellaneous remarks:
The historic natural water channel running through the place of use was rerouted by the US Fish & Wildlife Service (FWS) in connection with FWS's Upper Carson Slough Spring Channel Restoration Project. FWS's use and control of its water rights in the Carson Slough area have impaired the Applicant's vested water rights.
