I, Ed. S. Giles, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me, on the tenth day of October, 1948: That it truly and correctly represents the location and extent of the works used to divert water from an Underground Source in Nye County by Hugh C. Crutchfield for Irrigation: That the proposed point of diversion, the approximate location of the divert channel, all resevoirs and basins, the location and names of all other works which will be crossed by or connected with the proposed works and the boundary of all lands, showing by 40 acre subdivisions the area proposed to be irrigated are fully and correctly designated thereon.
