APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all prior rights. It is understood that the 1.0 cubic foot of water per second herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A suitable measuring device must be installed and accurate measurements of the water placed to a beneficial use must be included in the proof of such use when filed. In issuing this permit it is understood that the permittee will prevent any detrimental pollution of the waters of the Owyhee River as a result of their milling operations. The State reserves the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed one (1.0) cubic feet per second.

Actual construction work shall begin on or before August 3, 1938

Proof of commencement of work shall be filed before September 3, 1938

Work must be prosecuted with reasonable diligence and be completed on or before August 3, 1940

Proof of completion of work shall be filed before September 3, 1940

Application of water to beneficial use shall be made on or before August 3, 1942. Proof of the application of water to beneficial

use must be filed with State Engineer on or before September 3, 1942

Map Filed Aug. 6, 1937

Proof of commencement of work filed NOV 25 1938

Proof of completion of work filed NOV 25 1938

Final Map Filed September 25, 1942

Proof of Beneficial use filed SEP 25 1942

Certificate No. 2677 Issued Jan. 25, 1943 for 0.35 cfs
