APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source and is limited to what the well will produce but not to exceed 2.7 c.f.s. If well is flowing, a valve must be installed and maintained to prevent waste. A parshall measuring flume must be installed in a location approved by the Las Vegas office of the Division of Water Resources. It is understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. This source is located within an area designated by the State Engineer pursuant to NRS 534.030; therefore, the State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.7 cubic feet per second, and not to exceed a yearly duty of 5.0 acre-feet per acre of land irrigated.

Actual construction work shall begin on or before June 15, 1961

Proof of commencement of work shall be filed before July 15, 1961

Work must be prosecuted with reasonable diligence and be completed on or before June 15, 1962

Proof of completion of work shall be filed before July 15, 1962

Application of water to beneficial use shall be made on or before June 15, 1964

Proof of the application of water to beneficial use shall be filed on or before July 15, 1964

Map in support of proof of beneficial use shall be filed on or before July 15, 1964
