#--NOTE:- Above claimants purchased from the estate of Wm.R.Penrose 4.5 cu.ft.of water per second, decreed to the successors of said estate by Federal Court decree No.731 thru the Gold Hill Ditch, and by means of application and permit No. 6236 transferred said water right to lands above-described, same being used thru the Campbell Ditch. Owing to the fact that, under above-mentioned decree the practice of transferring water rights between parties is permitted, the amount of water for which certificate is issued is not decreased in proportion to the area of land irrigated. Attention is called to the fact that, in addition to water rights setforth in this certificate, appropriators hold 2.88 sec.ft. of water under priority of 1870 for land above-described, as setforth on Page 60 of Decree No.731

The right to water hereby determined is limited to the amount which can be beneficially used, not to exceed the amount above specified, and the use is restricted to the place where acquired and to the purpose for which acquired.

IN TESTIMONY WHEREOF, I, Robert A. Allen, State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 8th day of March, A.D. 1923

Robert A. Allen
State Engineer
