Description of works of diversion and use:-

This is a reservoir made on a hardpan flat where flood waters spread out over a large area, and evaporate rapidly. By digging this reservoir, which covers approximately one acre, water can be conserved to a depth of about 4 feet and hundreds of cattle can be watered as long as the water lasts. The reservoir may be filled more than once, dependent upon the season, and for this reason a total of ten (10) acre-feet of water per annum is allowed.

The right to water hereby determined is limited to the amount which can be beneficially used, not to exceed the amount above specified, and the use is restricted to the place where acquired and to the purpose for which acquired.

IN TESTIMONY WHEREOF, I, Robert A. Allen, State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 23 day of March, A.D. 1923
