APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of cattle served from the waters of this source. It is further understood that the service area of this spring is confined to the western slope of the Antelope Mountain Range. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0186 cubic feet per second, or sufficient to water 2,000 sheep and 200 cattle.

Actual construction work shall begin on or before February 17, 1960

Proof of commencement of work shall be filed before March 17, 1960

Work must be prosecuted with reasonable diligence and be completed on or before February 17, 1961

Proof of completion of work shall be filed before March 17, 1961

Application of water to beneficial use shall be made on or before

February 17, 1962. Proof of the application of water to beneficial

use must be filed with State Engineer on or before March 17, 1962
