APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to divert 3.5 cubic feet per second of the public waters of the State of Nevada for storage within the State of Idaho for stockwatering purposes is issued subject to all existing rights on the source and is limited to a maximum annual storage, from all sources, of 50 acre-feet. A suitable measurement device must be installed and accurate measurements of the water placed to a beneficial use must be included in the proof of such use when filed. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.5 cubic feet per second.

Actual construction work shall begin on or before September 1, 1954

Proof of commencement of work shall be filed before October 1, 1954

Work must be prosecuted with reasonable diligence and be completed on or before September 1, 1958

Proof of completion of work shall be filed before October 1, 1958

Application of water to beneficial use shall be made on or before

September 1, 1963. Proof of the application of water to beneficial use must be filed with State Engineer on or before October 1, 1963
