
CONSTRUCTED WORKS consist of two earthen dams forming two reservoirs which lie upon the natural channel from Upper Stockade Spring. Water impounded by the upper reservoir measures 70 feet by 40 feet by 3½ feet deep. Water impounded by the lower reservoir measures 61 feet by 68 feet by 3½ feet deep.

2000 head of sheep are watered from this source.

STATE OF NEVADA
COUNTY OF WHITE PINE ss.

I, C. S. Quate, being first duly sworn, depose and say that this map, consisting of one sheet only, has been correctly drawn to the designated scale from field notes of a survey made by me on the 13th day of December 1928; that it truly and correctly represents the location and extent of the completed works used to divert water from Upper Stockade Spring in White Pine County, by B. H. Robison for stockwatering purposes. That the actual point of diversion, the approximate location and size of the diverting channel or other conduit, the place and manner of use, and the location and names of all other works or streams which are crossed by, or connected with the said works, are fully and correctly designated thereon.

C. S. Quate
State Water Right Surveyor

Subscribed and sworn to before me this 19 day of December 1928.

Geo. F. Robison
Notary Public.

My commission expires Aug. 12, 1929
