APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water granted herein at any and all times.

The total combined duty of water under this permit and Permits 37414, 37417, 37420 shall not exceed 326.0 million gallons annually.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.34 cubic feet per second, but not to exceed 326.0 million gallons annually.

Actual construction work shall begin on or before September 20, 1980

Proof of commencement of work shall be filed before October 20, 1980

Work must be prosecuted with reasonable diligence and be completed on or before September 20, 1981

Proof of completion of work shall be filed before October 20, 1981

Application of water to beneficial use shall be made on or before September 20, 1983

Proof of the application of water to beneficial use shall be filed on or before October 20, 1983

Map in support of proof of beneficial use shall be filed on or before
