* Date of priority of appropriation April 2, 1875

Description of works of diversion, manner and place of Use:

Water is developed from the Truckee River through a 10-inch by 14-foot sump, from which it is pumped into a 1500 gallon tank. Water is then distributed to a restaurant, casino, motel, spa and 130-unit recreational vehicle park located within portions of the S½ NW¼ and NE¼ SW¼ Section 13, T.19N., R.18E., MDB&M, where it is used for quasi-municipal purposes.

This amended certificate is issued to include "restaurant, casino, motel and spa" in the manner of use since those uses were incorrectly omitted from the original certificate and the original proof of beneficial used filed under the permit.

The right to water hereby determined is limited to the amount which can be beneficially used, not to exceed the amount above specified, and the use is restricted to the place and for the purpose as set forth herein.
