State Engineer - Peter J. Morros

Petition to Adjudicate Boulder Creek; Spring; Reservoir in Northern Washoe County.

I am a claiment of the waters of above reference stream system and do hereby request adjudication of said waters pursuant to NRS Chapter 533.

We are a small ranch here app. 200 acres with app. 15 acres irrigatable with these waters from Boulder. Having bought this piece of property in 1983 as it was a dream come true for me - a place to raise my five(5) children and a few head of cows in country where I was raised and familar with.

We are using these waters to irrigate rye and for stock water for 20 head of cattle at present.

On three ocassions this spring Homecamp has turned our water out of main ditch and let it run on meadow of wire grass above with no actual irrigating involved, which left us with no water. We then turned our

Management telling me to gather my cows and put them under fence, even tho they were graying on my own unfenced property they could still trespass me. Last year we had the same problem with Homecamp

This water has been used on this property to irrigate this sys clear back to 1870 as there is evidence of old ditches that were used prior to and still used although actual date and construction size is unknown.

As you can see they have us beteween a rock & hard place This is my home but if my cows are out of water I have no other choice but to turn them out on my unfenced property and then chance being trespassed by B.L.M. and maybe having my cows impounded and held for trepassing fees.

We have done everything required of us, all filings on time, work on water system improvements, hiring Water Right Surveyor before we done anything. All of these things being done [illegible]

my Attorney doing research and seeking advice in this matter as I had hoped to avoid this.

In writting this request I'm aware that its more than likely there is a back log of requests such as mine, but we cannot survive without this water for our feed & stock water, having done everything possible to try & work ~~this~~ out with these people to no avail we must now ask for your help in resolving this as soon as possible.

I have two filings on Boulder Waters #04589 and #48076

Looking forward to hearings from you as soon as possible

Respectfully Yours

Alice Gladwell
