DESCRIPTION OF PROPOSED WORKS

These wells will be drilled to a depth of approximately 80 feet and will be cased and cemented to this depth with perforations in both wells at the same level.

5. Estimated cost of works \$1500.00
6. Estimated time required to construct works 30 days.

7. Remarks These wells are to be used as air-conditioning wells. The source well and the return well will both be cased and cemented down approximately 80 feet. The water will be taken from the source well and piped through the system and returned to the source through the return well at the same level without consuming any of the water. These wells will be used for air-conditioning (heating and cooling) in conjunction with a commercial building now under construction on the site.
