R U L I N G

General:

A protest to the granting of this application was filed on September 6, 1961, by A. Nuti and Son.

It is the opinion of this office that there is unappropriated water in the source and that the well proposed under this application will not interfere with other existing water rights.

RULING

The protest to the granting of this application is herewith overruled on grounds that its granting will not impair the value of existing water rights or be otherwise detrimental to the public welfare.

A permit subject to the following provisions will be issued under this application on receipt of the statutory permit fee:

1) The water must be used in conjunction with present water supplies;

2) The water granted under the permit is limited to supplemental use and is appurtenant to the 320 acres having existing water rights;

3) The well must be sealed above the first impervious strata encountered.

Respectfully submitted,
